Professional Summary

Software Engineer with hands-on experience building and maintaining web applications across frontend and backend. Skilled in **React.js, Next.js, JavaScript, Tailwind CSS, Node.js, Express.js, FastAPI, and REST APIs**, with practical experience in deployment, debugging, performance improvements, and production support. At Linkup Group Pvt Ltd, progressed from Software Engineer to People & Business Operations Lead while continuing hands-on engineering responsibilities. Currently pursuing an MCA specializing in Machine Learning.

Professional Experience

Linkup Group Pvt Ltd Jul 2025 - Sep 2026

People & Business Operations Lead Aug 2026 - Sep 2026

Promoted to lead day-to-day people and business operations while continuing hands-on software engineering responsibilities.
Coordinated team priorities, project follow-ups, internal communication, and delivery across client and internal projects.
Worked across technical and business teams to resolve blockers and keep execution on track.

Software Engineer Jul 2025 - Aug 2026

Built and maintained responsive websites and web applications using React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, and Express.js.
Created reusable UI components, integrated REST APIs, and worked on backend and database-driven features.
Handled testing, debugging, performance improvements, deployment, and production support in coordination with designers and team members.

Projects

INVORA - Inventory & Forecasting Platform | *Next.js, FastAPI, Prisma, Redis, RQ* | View Project
Built a full-stack inventory and sales management platform covering products, inventory, sales transactions, forecasting, reorder recommendations, analytics, reports, background jobs, and system settings.
Connected the Next.js frontend with FastAPI APIs and used Prisma, Redis/RQ workers, Vercel, and Render in the production setup.
Implemented ML forecasting, reorder recommendations, API integration, CORS, health/readiness checks, and background job flows.

PasteHub - Code Snippet Manager | *React.js, JavaScript, Tailwind CSS*
Developed a productivity application for storing, organizing, and managing reusable code snippets and text notes.
Implemented syntax highlighting, clipboard copy, dynamic routing, reusable templates, and streamlined snippet management.
Built a clean, responsive interface to improve developer workflow and usability across devices.

Education

Lovely Professional University Aug 2024 - Present
Master of Computer Applications (MCA) - Specialization in Machine Learning
Focus: Machine learning algorithms, Python, and data analytics.

Bundelkhand University Oct 2021 - Jul 2024
Bachelor of Computer Applications (Honours)
Built a strong foundation in computer science, programming, databases, and web development.

Technical Skills

Programming Languages: JavaScript (ES6+), Python, C, C++, Java
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, FastAPI, REST APIs
Databases: MongoDB, MySQL
Tools: Git, GitHub, VS Code, Postman, Docker, Redis
Libraries / ORM: GSAP, ScrollTrigger, Prisma
